

5. Hayes 7.5 Pre-lit Ridgedale Infinity Fir: The best luxury artificial Christmas tree

Price: From £1,629 (7.5ft) | [Buy now from Hayes Garden World](#)

You would expect a tree at this price to reach whole new levels of authenticity – and, thankfully, the Hayes does not disappoint. Modelled on a Fraser Fir, the Ridgedale is, in our opinion, the finest looking fake Christmas tree on the market by a long shot. While most trees keep costs down by using cheaper materials in some areas of the tree, every one of the branches on the Ridgedale Infinity is moulded and soft to the touch. It has an exceptionally high tip count using only PE and has over 4000 infinity lights – although you can also opt to buy it unlit if you prefer. With the longest warranty available on the market. If you want a show-stopper of a tree, start saving.

Key specs – Sizes available: 7, 7.5, 8ft; **Pre-lit?:** Yes; **Warranty:** 15 years
