

There's a reason why the 6ft Pre-Lit Bayberry Spruce is one of Hayes Garden World's best-selling Christmas trees.

This full, artificial tree, manufactured by the National Tree Company, is woven with 500 warm white LED lights for a truly magical Christmas glow, and it's everything you'd want for a family Christmas tree. The final decorated look is nothing short of perfect.

Usually, those who opt for artificial trees over real trees are looking to make a long term investment, something they can store away and use year after year. The branches on the Bayberry Spruce, made up of a mix of PE (polyethylene) & PVC branches, are hand wrapped, ensuring the tree does not lose tips on a regular basis.

6ft Pre-lit Bayberry Spruce Feel-Real Artificial Christmas Tree, ~~£269.99~~, NOW £215.99, Hayes Garden World

Angela Slater, resident gardening expert at Hayes Garden World, tells us: 'Our better quality Feel-Real trees with the PE (polyethylene) on the outer branches have sold much better than the budget 100 per cent PVC trees as consumers seem to be making an investment in quality.'
